

American Steamers

Steam Car Club of Great Britain

BULLETIN No. 8

July 16, 2012

Stowe, VT Steam Car Meet a SUCCESS!

Twenty four (24) steam cars including 2 Whites, 1 Lane and a “special made up steamer” and 100 participants were present for 4 days or touring with Wednesday off highlighted by a “Hawaiian” Pig Roast Dinner courtesy of the organizers:

Billings Cooke and Sarah Moon.

Tours averaged from 60 to 93 miles. Chris Greaves of Connecticut won the **SCCGB** prize for the most consistent steamer (a coffee cup). David Nergaard of Mass. won the “broke down” prize (a cap) for not only driving his car to the event but having **a major problem** with the vaporizer and branch lines causing him to almost give up completely – but, he got it done and even ran on the last day of touring before driving home 130+ miles.

FOR SALE

1900 LOCOMOBILE STYLE 02 RUNABOUT

This little steamer has spent almost all of its existence either in storage or in a museum display. It is very very original, right down to the boiler, engine, wheels, gauges, sight glass, it still has the original seat. The boiler will hold 100 PSI of compressed air and the engine turns freely. There is absolutely no rust on any metal components, it appears to have had a museum restoration many years ago but is very presentable.
